Personal and Confidential

Dear Mr. Williams,

I was kind of you to call. Enclosed is the Postscript I mentioned. When you and Mr. Midgeley have read it I'd appreciate its return for my copying facilities are limited. I have also decided to add a few minor insertions relating to the FBI and the voluntary misinforming of the Commission by its director.

While this Postscript adds no information to what is already contained in my book, in dramatic form it does reflect the deliberate misrepresentations of the FBI and its witnesses, subsequently and under oath, of both the number of shots and their source and the nature of the wounds in the most unequivocal form, despite the unique character of their institutional prose.

Again, thank you for your thoughtfulness. I will keep you posted.

Sincerely,

Harold Weisberg
